DESTINATION

YOU

SUBJECT
**SECURITY IN
MAIL & CURRENCY
BAGS**

ELC Security Products has the pleasure to present you the most modern technology in security seals for mail and currency bags. Remember that common padlocks can be easily opened with special tools or even with a spare key, without leaving any traces of violation. With ELC security seals, the number identification makes it impossible to violate the seal because each one has a unique number combination. You may choose between three products, according to your need. These are all recyclable, user friendly and extremely trustworthy products.
