Pull tight seals

F1234567 **Elckette**

0000001 ENTER **Pullock**
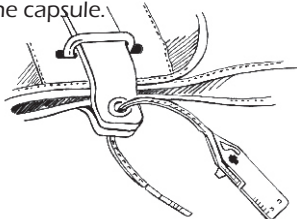

0000001 **Riplock**

0000001 **Securneck**

1234567 **Clipinlock**

How to seal

**01** Pass the tail of the seal through the object to be sealed and insert its tip into the capsule.

**02** Pull the tail of the seal until it is tight.

! **ATENTION!**

AVOID LOOSE SEALINGS!

03 Confirm if the seal is locked by gently pulling it as shown in the figure.

How to remove

Break the seal using the tear-off feature.

For seals without the tear-off feature, cut the tail will away of the capsule.
