

Gold medal for ELC!

Activity: Antidoping devices

For use at antidoping systems, ELC has developed the Snapseal Bag and the Ballzip Bag, both aimed at sheltering proof and counter proof devices, also manufactured by ELC.

Elements of the ELC Antidoping system:

Security envelope

Plastic security phials with anti-tampering ELC closure

Void envelope with tear-off receipt

Proof and counter proof bags

Snapseal Bag

Medal at the Inventions and New Techniques Exposition in Geneva

- High security and resistance
- Reusable many times
- Closed with plastic seal, bar-coded or alphanumerical
- Ultrasonically welded
- Nylon or PVC
- Access to the windows from inside or outside

Ballzip Bag

- The same security features
- Only in PVC
- Seals in high relief or hot stamp

Reference users:

The Brazilian Jockey Club, in Rio de Janeiro and São Paulo, CBF, the Brazilian Soccer Confederation, Sports Federations in Italy and Spain
