Leverlock System ★

The Leverlock System has been awarded the gold medal at the New Technologies and Inventions International Convention in Geneva, Switzerland.

Reusable Ecolock Bag

The newest, most economic, user and environment friendly, solution of security bags to transport valuables.

Applications:

- Money transportation.
- Consolidation.
- Document Transportation.

Advantages:

- Reusable and recyclable plastic bags.
- Each bag comes with its label holder Leverlock pre-adjusted (no tools).
- Sealed with the SS-02 security seal, available with bar coded numbers.
- Does not open accidentally, or under extreme temperature variations.

★ Note: The Leverlock System is also sold separately for other bag types.

Reusable Snapseal Bag

The lightweight Snapseal bag was created to replace the heavy conventional canvas bag closed by zipper or seal (tampered by manipulating the seal or the zipper).

Applications:

- Mailing and currency bags.
- Consolidation.
- Credit card distribution.

Advantages:

- Lightweight saves freight costs.
- Sealed with the inexpensive, plastic tamper evident, bar coded Snapseal.
- Eliminates the heavy padlock and the need for burdensome keys.
- Reusable.
- User friendly closure system.
- Manufactured in nylon cordura, or in PVC reinforced with polyester screen.

Snapseal

Reusable Ballzip (EB) & Zipper (EL) Bags

The strong, reusable, lightweight Ballzip and Zipper bags feature high-tech, "user-friendly" closure systems, free from burdensome keys.

Applications:

- Transit documents.
- Bank deposits.

Advantages:

- Fast & easy handling.
- Resistant PVC fabric.
- 100% tamper-evident.
- High-tech "user friendly" closure system.
- Optional clear PVC fabric enables identification of internal contents.
- The Ballzip and Zipper bags are sealed with the inexpensive plastic Plik and Pratik CW2 seals respectively.

Starlock plastic closure system

Starlock Plastic Bag

The unique truly 100% tamper-evident envelope. Sealed by the plastic mechanical closure dubbed "The Jaws of Death" by USPS.

Applications:

- Credit cards and checks shipments.
- Night deposits.
- Confidential documents.

Advantages:

- Speeds up the reconciliation process.
- Freon and heat proof
- Unlimited shelf life.
- Absolute indication of tampering.

*The logos printed above are property of its respective users.

Adhesive VOID

Plastic Adhesive Bag

Envelope with tamper-evident adhesive closure system, which provides an easy visual verification of tampering.

Applications:

- Cash and valuable handling.
- Confidential documents.
- Evidence bags.

Advantages:

- Easy verification of tampering.
- Fast and easy handling.

- Possible accidental violation if exposed to extreme temperature variation.
- Storing must have temperature control.

Starlock Plus System - Reusable Plastic Bag and Hanging Folder

Reusable version of the Starlock bag, sealed with the Newlock seal. Works as a mailing bag and/or hanging folder (once its suspending handles is applied).

Applications:

- Confidential filing system.
- Document transportation.

Advantages:

- Reusable - Economical and environmentally.
- 2 in 1 - Mailing bag and hanging folder.
- Freon and heat proof - 100% tamper evident.
- Optional: Gusset version available.
- Optional PVC version for a greater resistance.

* Note: The filing structure (galvanized steel iron tubes and plastic connectors) are furnished separately. Please, consult us.

Newlock seal

Pullock seal

Securneck seal

Securneck, Pullock and Riplock Seals

The all-purpose Securneck, Pullock and Riplock security seals are strong and suitable for a wide range of applications. These seals are user-friendly, recyclable, and provide a viable substitute for harmful lead-seals.

Applications:

- Mail and cash bags.
- Containers and trucks.
- Universal: Any compartment to be closed.

Advantages:

- Self-locking and adjustable length.
- Quick installation and removal.
- Tear-off for easy removal (Securneck and Riplock).
- Secure, adjustable, versatile and strong.
- Bar-code and/or check digit numbering system.
- Also numbered in high relief or hot-stamping.
- Optional: Unique tear-off receipt (Securneck).

Lead-free Anchor Seals

The one-piece Anchor seal, made of polypropylene (AFN) or polycarbonate (AWN) represent the state-of-the-art in plastic security seals. Logo and numbers molded in high relief at the injection process, making these seals 100% tamper-evident.

Polycarbonate
Anchor seal AWN

Polypropylene
Anchor seal
AFN

Applications:

- Mail and cash bags.
- Containers, trucks and rail cargoes.
- ATM currency cassettes.

Advantages:

- Logo and numbers molded in high relief at the injection process.
- Optional: Authenticator eliminates transcription errors of the numeric sequence onto the manifest.
- Variety of thread sizes and types.

Sentrinel Tamper Indicating Label

The Sentrinel Seal provides indelibly laser-printed adhesive labels with barcodes and tear-off numbered receipts.

Applications:

- Cargo doors.
- ATM currency cassettes.
- Cash drawers.
- Shipping containers.

Advantages:

- Easy to apply, 100% tamper-evident.
- Recognized as the industry standard for ATM cassettes.
