$$ETI = P (R + E) *$$

**\*Effective Tamper Indication =  
=Protection of Revenue + Environment**

## Fastlock Seals I & II

Maximum security and the newest technology in Tamper-evidence.

### Applications:

- Utility Meters - Light, Water and Gas

### Advantages:

- One-piece Seal (Fastlock II)
- Closed-end Locking Mechanism
- Numbers and/or logo molded in high relief (Fastlock I)
- Laser Bar-coded Numbers (Fastlock II)
- Made in Polycarbonate Raw Material - See-through properties
- Ergonomic

### Fastlock II:

Wire ultrasonically welded to seal - when cut wire frays, showing evidences of tampering.

Mat of 10 seals connected together  
user-friendly seal distribution and application

Electricity Meter

Fastlock I LM

Fastlock II LM

### Features:

- Bar code with check digit or high relief molded numbers - impossible to counterfeit !
- No tools required for sealing
- Raw-material additives that prolong seal useful life up to twenty years

Water meter

### Exclusive:

- ELC offers a software along with the Fastlock seals which controls the application of the seal creating the "virtual security link" - visit [www.elodese\\_seguranca.com.br](http://www.elodese_seguranca.com.br)

Gas Meter

The information is recorded into a web-based database which can be easily traced anytime anywhere.

- Impossible to substitute the original seal
- Revenue Protection Guaranteed

# Anchor Seals AN, AWN & AFN

State-of-the-Art Anchor Seals universally recognized in the Utility Industry

## Applications:

- Utility Meters - Light, Water and Gas

## Advantages:

- No tools required
- Optional: **Marking Pliers** for on-the-spot marking
- Optional: **Authenticator** eliminates transcription errors
- Variety of **sealing threads**, sizes and materials

## Numbering:

- High relief molded numbers - Impossible to counterfeit !
- Laser hatched Bar-coded numbers with check digit
- Hot stamp (Model AFNH)

**Anchor Seals - Now available with double anchor (Four Hooks):**

The double anchor seals offer additional resistance against tampering

## Raw-Material:

- Polycarbonate Seals

## Laser Hatched Seals:

- Anchor capsule insert and numbers (A LM, AN LM, A2N LM, ANR LM and A2NR LM)
- Anchor, numbers and plastic filament (AFN LM and A2FN LM)
- Anchor, numbers and wire (AWN LM, A2WN LM, AWRN LM and A2WRN LM)
- Anchor, numbers and metallic band (ARN LM, A2RN LM, ARNR LM and A2RNR)

## High Relief Numbered Seals:

- Anchor, numbers and wire (AWN)

## Raw-Material:

- Polypropylene Seals

## Hot Stamp Numbered Seals:

- Anchor, numbers and plastic filament (AFNH)
- Anchor, numbers and wire (AWNH)

\* Wire:  
In Stainless steel or  
galvanized wire  
available in spools  
or pre-cut sizes

Electricity Meter

A2N LM Seal

A2N LM seal  
with receipt

AN LM seal  
with receipt

AN LM Seal

AWN seal  
in high relief

Water meter

Gas Meter

A2FN LM seal in polypropylene  
mat with 10 pieces

\* Polycarbonate  
high security  
and resistance

## Laser Hatched Seals:

Numbers laser marked on the seal's capsule and on its tab, which tears-off as a receipt. The receipt serves as a physical proof of delivery/expedition and guarantees the perfect match to the used seal.

## Starlock Security Bags

Starlock is a unique and 100% Tamper-evident closure system. Freon-proof, contains no adhesive to compromise security and recyclability. Post-office approved. Design to withstand the most abusive handling conditions. Strong, lightweight, water and oil resistant, opaque or clear polyethylene film, gusset version.

### Applications:

- Inspection on Fraudulent Meters

### Advantages:

- The only 100% Tamper-evident disposable bag (Freon-proof)
- Cold, heat and prolonged storage resistant
- High security side-welding
- Optional: Bar coded numbered tear-off receipt
- Gusset Version saves postage compared with corrugated cartons
- Optional: External Pouch for Airway bill (Courier)
- Reinforced Tri-extruded Film to prevent accidental punctures from meter
- Personalization with company name and logo available

Security Seal Starlock

Ultrasonic welding "wafer-type"

Optional: Numbered tear-off receipt with 7 digits: The numeric sequence on the body is repeated on the tear-off receipt serving as physical proof of the delivery/expedition of the bag
